

# 2019 BIT Short-term Programs (4 – week program)

## Overview

BIT short-term programs are designed for all levels international students.

**Program 1:** Intelligent Vehicles and Electric Vehicles with School of Mechanical Engineering

**Program 2:** The Practice of the traditional Chinese culture from an artistic perspective with School of Design and Arts.

**Programs 3:** Chinese language intensive study program

Intelligent vehicles and electric vehicles program includes both the academic lectures in Electric Vehicles, Vehicle transmission, Intelligent Vehicle Demos areas, and also the practice of Transmission Disassembly, Intelligent Vehicle Demos in the labs. In addition, students will have the chance to work with BIT Formula I Team and visit Beijing Electric Vehicle Company.

The practice of the traditional Chinese culture from an artistic perspective offers students an art feast. There will be deep and meaningful lectures about Chinese Calligraphy, Chinese Pottery and Paper Cutting to explore the beauty of art in the ancient times of China. What's more, students will visit Beijing Hutong, Central Academy of Fine Arts and some design companies.

Chinese Language intensive study program includes three integrated courses: Basic Chinese, Conversation, and Chinese Listening. Students will have more chance to practice their Chinese language skills in the local environment. This program also invites BIT Chinese students as the language
