

UN SUSTAINABLE DEVELOPMENT GOALS

We are a multiple award winning for-impact organisation, focused on developing vulnerable communities in northern Peru sustainably. **Working with students from the world's top universities** we carry out infrastructure projects, educational and socio-environmental initiatives. To date we have implemented 17 initiatives aligned with the UN's Sustainable Development Goals, impacting the lives of over 5,000 people.

Volunteer interns can apply to our following online positions:

- NGO Management
- Nature conservation and reforestation
- Research (university thesis, etc)
- Renewable Energy
- Water and Sanitation

Apart from the **specific project work** that comes with each position (studies, monitoring, data analysis, research, etc) we provide the following educational seminars, and more:

- NGO/Social enterprise creation and management
- Outreach and Business Development
- Marketing for development
- Sustainability perspectives from a local "on the ground" development organisation

For every volunteer intern that joins our program we are able to sponsor a vulnerable family which has been severely affected by COVID-19. In appreciation the family will plant and adopt a tree in their name.

To apply and to learn more about the program please visit: <https://www.ecoswell.org/about-the-program>
