The program offers an introduction to Quantum Science and Technology (QST) for selected bachelor students from all around the globe. Discuss cutting edge research in virtual one-on-one meetings with MCQST experts and at a student conference! Kick off your own career with our soft skill course and mentoring opportunity during the program! Find out more about the research done at MCQST in live virtual lab tours and discussions in the fields of:

- Quantum Information Theory
- Quantum Metrology & Sensing
- Quantum Simulations
- Quantum Computing
- Quantum Communication
- Quantum Matter
- Explorative Directions

When?
11 - 16 July 2021 (online)

Where to apply?
www.mcqst.de/summer

Application Deadline
15 March 2021
