- ▶ 28 academic unions

# THE COURSE OF ONE SEMESTER

SEMESTER  
START

COURSE  
MODULES

PROJECT  
MODULE

EXAMS

# PROBLEM AND PROJECT-BASED LEARNING

- › Students are encouraged to solve a problem – they learn through problem solving
- › Students complete a project in groups
- › Students have an academic supervisor who assists them in the project process, challenges and discusses their ideas, and provides feedback on their project work
- › Students document their work in a project report which is the subject of an oral (group) examination

# THANK YOU

# Questions?

AALBORG UNIVERSITY  
DENMARK

Det er ikke fordi gartneren holder fri, at  
græsset er langt og ukrudtet højt. Det er  
så et græsset. Via Med Vilde, blomster-blads til  
biometriske Urten, sommerflugt og vilde bier.

For at give os til biometriske urter bliver  
arealet slået en til to gange om året og  
afklippet regelmæssigt.

Via Med Vilde er en bevægelse for alle os, der  
ønsker at gøre en forskel for naturens  
mangfoldighed, der hvor vi bor eller arbejder.

Denne vilde side gør en lille forskel lokalt. Når  
vi er mange nok, kan vi sammen gøre et stort  
de vilde arter og urter og insekter i Danmark.

Vi håber at I vil lege godt imod den vilde  
natur, og at I vil nyde de mange forskellige  
planter og insekter, der indfinder sig.
