# REQUIREMENTS

- You are required to choose the majority of your courses from one faculty. You can be only accepted by the Faculty closest to your educational background.
- You need to have sufficient prior academic background in the field of study. For many fields, one completed year in the field of study is enough.
- However, our courses taught in English are mainly on advanced Bachelor and Master-level. Therefore:
- The prerequisite for **Medicine** is two full years of pre-clinical and one full year of clinical studies. In **Psychology**, the prerequisite is two full years of university-level studies in Psychology. Medicine and Psychology are also highly restricted and access to them cannot be guaranteed to exchange students admitted via university wide agreements.
- For **Life Sciences** (the faculties of Agriculture and Forestry, Biological and Environmental Sciences, and Pharmacy), the prerequisite for studies in Helsinki is two years of completed university studies in the field in question.
