

Study Abroad Program for International Engineering Students

ICAI SAPIENS

ICAI School of Engineering Madrid (Spain) Academic Year 2023-2024

DESCRIPTION

ICAI-SAPIENS is a program that was designed for engineering and other STEM students in 2013, and has been growing ever since. Students, especially from the US, gain international experience without delaying their graduation, given that the vast majority of these courses are what they require towards their curriculum. We offer several categories of courses in our ICAI-SAPIENS, all of which are taught in English:

- Fundamental Engineering/STEM: these are meant to be similar/identical to their equivalent subjects in a standard US Sophomore/Junior year.
- Culture, Language & Humanities: these provide an insight into the Spanish language and culture, and include guided visits to several local landmarks.
- Technological & Electives: these are highly recommended for international engineering/STEM students.
- Research Projects: supervised by professors and researchers of the school of engineering. These projects
 are only available and assigned to semester-long exchanges and 8-week summer students.
- Other, additional and business courses: offered at the ICAI School of Engineering, these are also available
 to ICAI-SAPIENS students, schedule permitting, offered in either English and/or Spanish. Please note that
 their calendar and exam periods may differ from SAPIENS depending on the term(s).

PERIODS / TERMS

ICAI-SAPIENS is offered in the following three terms:

- FALL 2023: from September 4th to December 22nd
- SPRING 2024: from January 15th to April 26th
- SUMMER 2024: from May 20th to July 12th (4 to 8 weeks)

Note: these periods include SAPIENS exams. ICAI (non-SAPIENS) exams may extend to January 12^{th} (FALL) or May 22^{rd} (SPRING)

RETAKE EXAMS: for SAPIENS courses, mid to late May. For ICAI courses, mid to late June.

LOCATION

The ICAI School of Engineering is located in downtown Madrid, within walking distance to the most significant historic landmarks in our city. Our 24/7 outsourced housing service provides numerous nearby housing options.

Madrid is conveniently situated in the center of Spain, with easy access (typically in under 3 hours by high-speed train or highway) to the most interesting tourist attractions and cities in Spain. Madrid International Airport offers direct flights to the most important cities in Europe, including all capital cities in the European Union.

TESTIMONIAL

"The past six months here at Comillas have been nothing but positive experiences for me. I really appreciated how personal the teachers are with their students. It is clear to see that they are truly rooting for our success. I could not have imagined a better place to make new lifelong friends and memories during my study abroad experience."

Carly Torrado Lubalin

Mechanical Engineering '19 A. James Clark School of Engineering University of Maryland, College Park
