

KAUST Internship Opportunities

Our Visiting Student Research Program (VSRP) is a global research internship that offers students the opportunity to conduct innovative research under the guidance and support of KAUST faculty mentors for 2-6 months.

Participating interns this year are from Imperial College, University of Oxford, University of Milan, EPFL, UC Berkeley, University of Tokyo, National University of Singapore, and others.

Students admitted into the program receive:

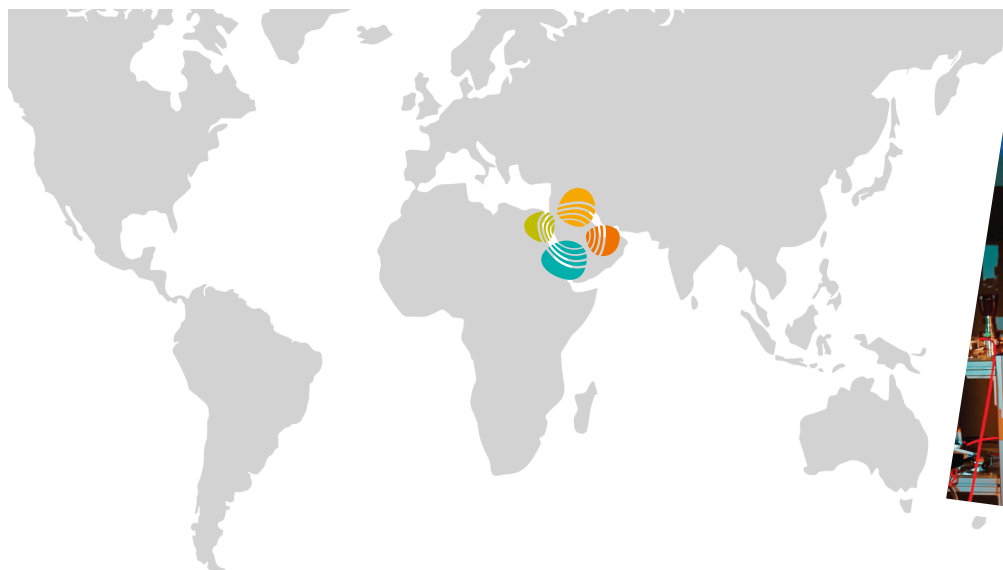

-  1,000 USD monthly stipend
-  Access to KAUST's Core Labs and major research facilities
-  Health insurance coverage
-  Travel costs
-  Shared housing with individual bedroom and bathroom
